

eve[®] supports the following systems

- INFORS HT bioreactors, as well as shakers
- Sartorius DCU (Biostat B, etc.)
- Applikon in-/ez-/my-Control
- Devices meeting the OPC standard (Siemens, Allen-Bradley, etc.)
- Software via OPC or INFORS HT Rest API (Matlab, etc.)

Communications protocols for eve[®] are constantly being expanded. We would be happy to integrate your bioprocess equipment. Contact us for a quote.
